

IN THE CLAIMS:

Please amend the claims as follows:

B¹ 13. (Amended) A tape-like package comprising a plurality of embosses arranged in series, each of said embosses accommodating a respective completed brushless motor.

Please add claims 24-26 as follows:

B² 24. A tape-like package comprising a plurality of embosses arranged in series, each of said embosses holding a brushless motor, each brushless motor comprising:

a housing including a bottom surface for mounting the brushless motor on a substrate;

pairs of terminals on an outer side of said bottom surface;

a stator, a bearing device, and a rotor inside said housing, said stator having a stator core and a coil wound around the stator core, said rotor having a magnet supported by said bearing device so that said rotor rotatably surrounds the periphery of said stator.

*B2
cancel'd.*

25. The tape-like package according to claim 24, wherein said rotor further includes an unbalance means.

26. The tape-like package according to claim 24, wherein said motor further includes an external drive means protruding upwardly from a part of the housing and rotatable with the rotor.
